A Sonova brand

unitron™ Love the experience

We believe the world would be a better place if people felt really good about the entire hearing care experience.

Today's clients have changed, but their hearing care journey has remained the same. The traditional process leaves them overwhelmed, skeptical and pressured. It's time to revolutionise the entire hearing care experience – and we've done just that.

Love the experience is our promise to hearing care professionals (HCPs) and the people they help every day. It's our reason for being and the standard against which we will measure every move we make going forward. Simply stated, any solution or initiative must always map back to providing a hearing experience people will absolutely love.

The total experience
